# UNMET NEEDS IN DIAGNOSTICS AND TREATMENT

## CURRENT DIAGNOSTIC GAPS

Despite advancements in medical science, significant diagnostic gaps persist due to limited access to affordable testing, delayed disease detection, and lack of specialized infrastructure in rural areas. Many conditions remain underdiagnosed or misdiagnosed, hindering timely treatment, personalized care, and effective health outcomes across diverse populations.

## INNOVATIVE TREATMENT SOLUTIONS

Mang La Mediscience pioneers innovative treatment solutions through advanced pharmaceutical research and technology. By developing novel, affordable formulations, we address unmet medical needs across neurology, gynecology, orthopedics, pediatrics, and general health. Our evidence-based, patient-focused approach ensures accessible therapies that enhance recovery, improve quality of life, and promote global healthcare advancement.

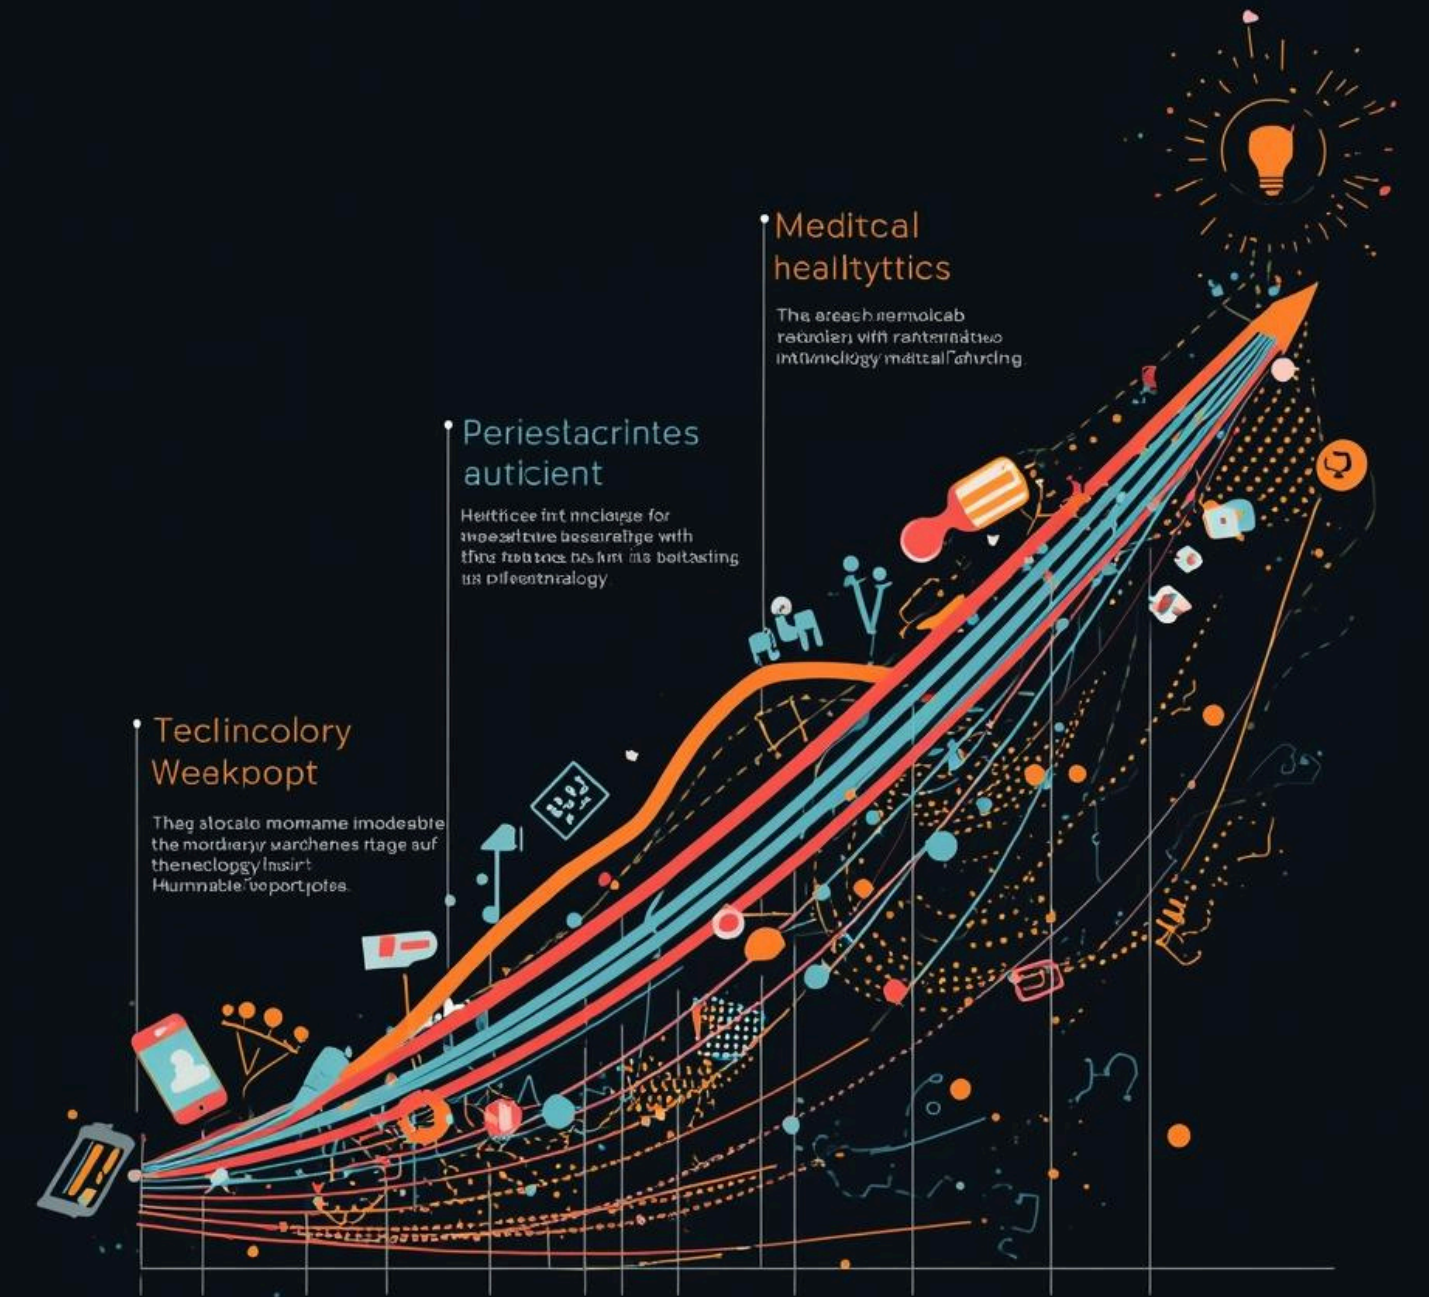

# MARKET OPPORTUNITY

India's rapidly expanding pharmaceutical market offers immense potential for affordable, high-quality healthcare solutions. With rising disease awareness, growing middle-class demand, and supportive government initiatives, Mang La Mediscience is well-positioned to capture market share through innovative formulations, strong R&D, and nationwide distribution, addressing critical gaps in accessible and effective treatment options.

# OUR INNOVATIVE TECHNOLOGY SOLUTIONS

## ADVANCED DESIGN

Mang La Mediscience integrates advanced design principles in every stage of drug development — from molecular structure to packaging. Our technology-driven processes ensure precision, safety, and sustainability. By combining innovation with human-centric design, we deliver efficient, accessible, and reliable healthcare solutions that enhance patient experience and global therapeutic standards.

## EFFICIENT OPERATIONS

Mang La Mediscience ensures operational excellence through streamlined manufacturing, optimized supply chains, and data-driven quality control. Our efficient processes reduce costs, minimize waste, and accelerate delivery without compromising safety or efficacy. By leveraging automation and skilled manpower, we achieve superior productivity and consistent quality across all therapeutic segments.

## RELIABLE PERFORMANCE

Mang La Mediscience is committed to reliable performance through stringent quality standards, robust R&D, and consistent product efficacy. Our pharmaceutical formulations undergo rigorous testing to ensure safety and trust. By maintaining transparency, precision, and accountability, we deliver dependable healthcare solutions that meet global benchmarks and patient expectations consistently.

# KEY MILESTONES

## LAUNCH

Successfully launched Mang La Mediscience, establishing a strong foundation and initial market presence in the healthcare sector.

## GROWTH

Achieved significant growth in customer base and revenue, solidifying our position as a leader in innovative medical solutions.

## EXPANSION

Expanding operations into new markets, aiming to enhance accessibility of our healthcare products and services globally.

# FINANCIAL PROJECTIONS

Mang La Mediscience targets robust growth over the next three years. Revenue is projected to reach ₹150 Cr in 2026, ₹220 Cr in 2027, and ₹320 Cr in 2028, representing annual growth of ~40%. Gross margins are expected at 65–70%, while net profit margins improve from 15% in 2026 to 22% by 2028. Key drivers include PAN India expansion, specialized therapeutic segments, and continuous R&D investment. Additional funding will accelerate manufacturing, distribution, and innovative drug development, ensuring strong operational efficiency and positioning the company for sustainable profitability and significant market leadership in India's pharmaceutical sector.

# THE TEAM

Dr. Rajan Manbahadur Singh

- Role: Founder & Director
- Qualification: MBBS, MD (Neuro Surgeon)
- Expertise: Clinical insights, R&D guidance, and medical strategy

Puja Sinha

- Role: Co-Founder & Director
- Qualification: Graduate in Arts
- Expertise: Strategic leadership, operations management, and business development

Team Strengths:

- Complementary skills in medical and business domains
- Strong experience in healthcare operations and pharmaceutical development
- Committed to innovation, quality, and affordable healthcare solutions

# INVESTMENT HIGHLIGHTS

Mang La Mediscience seeks a ₹20 lakh grant to accelerate growth and strengthen its PAN India presence. Funds will be used for R&D, manufacturing scale-up, and distribution expansion, ensuring maximum impact. Key highlights include:

- High-Growth Potential: Expanding in multiple therapeutic segments with rising demand.
- Innovation Focus: Developing affordable, effective proprietary formulations.
- Operational Efficiency: Maintaining 95%+ efficiency for strong ROI.
- Experienced Leadership: Founders bring expertise in healthcare and clinical practice.
- Revenue Growth: Projected to grow from ₹150 Cr (2026) to ₹320 Cr (2028).

This grant will drive innovation, market reach, and sustainable profitability.
